2.3.1 Student centric methods, such as experiential learning, participative learning and problem-solving methodologies are used for enhancing learning experiences

Institute adopts student centric methods for teaching learning process for better understanding of the concepts. Project and miniproject work facilitates participative learning and problem solving capacity building. Internships and industrial projects facilitate experiential and participative learning. Participation in technical events, certificate programs and guest lecturers increases problem solving ability of the students. E learning resource centre helps in understanding the subject better and hence increase problem solving abilities.
