Name of Activity: **GATE Exam Preparation and Future Scope**

As we all know, the GATE (Graduate Aptitude Test in Engineering) exam is very important and prestigious for every engineer to grow their career in future. To improve the count of success in GATE exam of GIT students and to know various opportunities after good score in GATE exam, ASCEE organized a session on "GATE Exam Preparation and Future Scope" on 01st May, 2021 and invited Dr.Anshu Anand, Assistant Professor, IIIT Alahabad.

Ms.Nupura Deshpande has talked on Maharashtra Day and International Day of Workers and introduced Speaker Dr.Anshu Anand then respected HOD Dr.R.R.Bane sir welcomed our guest and handed over the session. Dr. Anshu started with the importance of the GATE exam and showed how efficiently students can use the GATE portal. He suggested various sites where students can prepare for this exam and can secure a good score. He motivated students to prepare for GATE 2022 with various statistics like previous batches minimum and maximum score and how it will relate with current learning subjects.

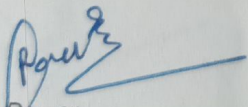

Respected Sir told about various job opportunities for students after getting good scores in the GATE exam. Also explained how Bloom's technology is related to students' progress and their future. Prof.Tirupati sir recalled some memories with Dr.Anshu sir in GIT campus. Many students cleared their doubts. Dr.R.R.Bane sir had given a vote of thanks and ended the session.

Name of Activity: **Use of Artificial Intelligence in IT Industry**

Nowadays Artificial Intelligent systems are used in various fields by researchers. Availability of data now but now we have to drill down on data and extract meaningful information from big data. So expensional need for AI in the market, for example self-driving cars, Robots etc. To motivate students to learn AI in details GIT's alumni Nishant Reelkar suggested one of his friend working with Infosys as Data Analyst Mr.Vignesh Nacchipalli to take session on "Use of Artificial Intelligence in IT Industry" so ASCEE organized this session.

Mr. Vignesh shared his working experience with students and told about the demand of Artificial Intelligence in the globe. Availability of data and computing of data is in huge demand in the AI market in recent years. He guided how students will get different roles and responsibilities in the field of Artificial Intelligence. With the help of some use cases in AI he motivated students about the various fields in AI like NLP, ML, AR, VR, Image Analysis, AI in Manufacturing etc.

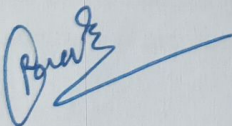

Respected HOD Dr.Bane sir was taking Artificial INtelligence subject in college so he interacted with Mr.Vignesh Nachiappan at the end of session. Many students cleared their doubts. Ms.Soumya Kumari had given a vote of thanks and ended the session.

Name of Activity: **Human Machine Interaction & It's Career Opportunities**

Human Machine Interaction is one of the emerging areas in Information Technology Industries so University of Mumbai also added HMI subject for BE computer Engineering students. To interact with IT Industry an expert in this field ASCEE invited GIT's alumni Ms.Anushka Srivastva working in Honeywell India as a UI Designer.

She introduced herself and briefing about Honeywell company and her role as User Interface Designer. She did Masters from National Institute of Design , Bangalore and suggested students can go for Masters courses to strengthen their profile and career in the UI field. She explained with many examples how User Interface design is important in any Project Development. Time changes the concept of Human Computer Interaction like machines can be controlled by touch , voice, gestures or virtual reality glasses etc.

She told about various career opportunities in UX, Design, interaction design, Research on design fields with or without short term courses. She also suggested some short term courses after graduation related to User Design interface. Ms.Soumya Kumari from second year computer engineering had been given feedback about the session and Prof.R.B.Pawar, ASCEE Staff coordinator gave a vote of thanks and ended Session.
